EXPERIENCE

ReserveBar

Software Developer

Remote, USA

Sep 2024 - Present

- Building full-stack features across NestJS backends and Next.js frontends, focusing on robust, scalable, and maintainable solutions.
- Applying clean architecture and a reusable component system based on shadcn/ui and Tailwind CSS, while tuning rendering strategy in Next.js (SSR vs. CSR vs. static) and the server/client component split.
- Building an embeddable third-party integration to plug into different CMS platforms (Shopify, WordPress, etc.), enabling external sites to consume ReserveBar functionality with minimal setup.

Sidekick AI

Frontend Developer (Part Time)

Remote, Toronto, ON, Canada

May 2024 - Aug 2024

- Shipped new features for the email builder platform using TypeScript and Next.js, translating Figma designs into interactive, production-ready components and debugging cross-browser issues end-to-end.

Kineton

Software Developer

Tirana, Albania

Jan 2023 - Aug 2024

- Worked as a Web and Mobile developer in TypeScript with React, React Native, and Redux, using Material UI and Styled Components for the design system.
- Built mobile experiences with React Native (Navigation, Maps, Animatable, Reanimated, Swiper) and backend services on NestJS + Prisma.
- Contributed across all stages of development, from multi-environment configuration and feature work to producing release candidates and publishing to the Google Play Store and App Store.

Nurselo GmbH

Full-Stack Developer

Remote

Feb 2022 - Jan 2023

- Built features in React and Angular with TypeScript; styled UIs using Bootstrap, Material UI, and Tailwind.
- Worked on backend services using NestJS, Prisma, and Firebase, with CI/CD and Git-based workflows.

Enterprise Nation

Junior Frontend Developer

Remote, London, United Kingdom

Oct 2021 - Feb 2022

- Built React and Next.js features in a DevOps (Azure) environment, integrating with CRM systems and Eventbrite.
